Technology, 2020

MARANDA HENDERSON

ENTREPRENEUR & FREELANCER

Maranda Henderson is the founder and CEO of Marandos Art Bando LLC, a creative designer, and certified professional vehicle color change wrap installer. Her passion to fill plain walls as we observe more than 80% of information through our eyes led her to become part of less than 1% certified in her industry. Maranda works with businesses to promote and market their brand through an artistic medium that is transversal on both small and large-scale platforms. Utilizing her artistic talents she works to create a platform of existence for women in a male-dominated industry; merging art and the automotive world.
